

## Dr Nee Pei Yi

### Clinic Doctor Parkway Parade

Dr. Nee Pei Yi graduated with an MBBS from the National University of Singapore's Yong Loo Lin School of Medicine where she was top 10% in her cohort for several years. She then joined the National University Health System Family Medicine Residency programme to train to be a holistic and patient-centric doctor for people of all ages. This has allowed her to rotate through many subspecialties in the hospitals and clinical attachments to nursing homes and palliative care services where she was able to see people across the continuum of family practice.

She obtained her Graduate diploma in Family medicine and is a licensed Family Physician while honing her skills in aesthetic medicine.

Dr Nee pays attention to every last detail of the face, takes time to understand her client's needs and forge bonds beyond the clinic setting.

She seeks to achieve individualised beauty for everyone and is able to assess which injections, fillers, or laser treatments are required to improve certain features, thereby elevating and enhancing the look for the client.

Dr Nee is fully accredited by the Singapore Medical Council (SMC) Aesthetic Practice Oversight Committee to perform a whole range of facial aesthetic and body contouring procedures, including botulinum toxins, fillers, non-surgical facelift, non-surgical body contouring, lasers, skin tightening and more.

Outside of the clinic, Dr Nee enjoys spending time with her family, meeting new people and enjoying the simplest pleasures in life through the lens of her two children.
